NCAA TOURNAMENT HISTORY

1999 MIDWEST REGIONAL | No. 15 Seed (0-1)

March 12 First Round (New Orleans, La.) Utah (2) 58-80

It was 28 seasons in the making, but Arkansas State finally broke through the NCAA Tournament barrier after an incredible run at the end of the 1998-

99 season.

A-State's storybook run through the Sun Belt Conference Tournament ended in an invitation to the Big Dance to face the nationally sixth-ranked Utah Utes in the Midwest Regional at New Orleans, La.

The selection show was over, the countless interviews completed, all the game file reviewed and the intense practices nothing but a memory. All the hoopla over A-State making it for the first time to the NCAA Tournament took a back seat to the ultimate task at hand.

Utah had Associated Press All-America guard Andre Miller running the point and a huge front line of players unlike any A-State had seen during the season. A tough game lay ahead for underdog A-State.

The first half was close as A-State actually lead 15-14 with 8:32 to play in the half before Utah began to muscle into the lead. A-State trailed by 10 with 4:14 left in the first half before slicing the deficit to three with 44 seconds left. But Tony Harvey nailed a three-pointer with 25 seconds to go giving the Utes a 36-30 halfitme lead.

Freddy Hicks loomed large inside, swatting away four shots in the half despite being shorter than those he defended. Chico Fletcher tallied 15 points in the half as A-State kept the score close.

The second half was more of the same at the start. A-State kept the score close with controlled breaks and solid play. Eric Beatty stepped up in the second half to score 11 points, but unfortunately they weren't enough.

Trailing 39-38 with 16:22 remaining in the contest, A-State began to succumb to its size disadvantage inside. Leading by 11 points with 10:36 remaining. Utah quickly established dominance and pushed its margin to 21 points over the next 3:47 and held around a 20-point cushion for most of the rame.

Freddy Hicks, A-State's all-time leading shot blocker at the time, concluded the game with six blocks which represented the third-most rejections in NCAA Midwest Regional history. Chico Fletcher scored 21 points in the game while Eric Beatty poured in 17 points for A-State.

NIT HISTORY

1987		
Fayetteville, Ark.		First Round
March 13	Arkansas 67	, Arkansas State 64 OT

In a game dubbed by the Arkansas media as "the game of the Decade," the Razorbacks scored four overtime baskets - all from less than five feet away - to finish off a depth-riddled, foulplagued A-State team that led handily most of the contest. A-State led only once during the overtime at 64-63 on Steve Wiedower's trev with 2:01 left. A-State's earlier 21-point lead (51-30 with 10:43 to play) evaporated as Arkansas used two late three-pointers by Ron Huery and two more by Canon Whitby to force the overtime knotted up at 59-all. Some missed free throws and costly fouls limited A-State during the final three minutes of regulation. John Tate's 18 points and 14 rebounds led all players in the game while Arkansas was paced by Mario Credit's 15 points and Ron Huery's 14-point performance.

1988	
Jonesboro, Ark.	First Round

March 18 Arkansas State 70, ULM 59 Bo Brown and John Tate each scored 18 points and Brown claimed a team-leading 12 rebounds for A-State, which put the game away with a 21-9 scoring spurt to start the second half. Greg Williams added 15 points for A-State. Michael Saulsberry had 17 points and 14 rebounds for ULM, which was held to 38.7 percent shooting

in the game.

Rhon Johnson swished the front of a two-shot free throw opportunity with no time remaining to lift A-State to the upset win. A-State trailed most of the game and rallied behind John Tate and Ed Louden. Stanford missed the front of four-straight one-and-one chances in the final 3:29, enabling A-State to creep back. Tate's layup at 1:22 tied it up at 59-all. The Cardinal couldn't connect on their next possession and following an A-State timeout with 19 seconds to go, Johnson drove the baseline and attempted a reverse layup before being fouled just prior to the final horn.

Fort Collins, Colo.		Quarterfinal
March 25	Colorado State 6	4. Arkansas State 49

Pat Durham's inside quickness was too much for A-State as he led CSU to easy success with 26 points. A-State trailed by 18 points midway through the second half and could not recover. Ed Louden's 13 points and John Tate's 12 led A-State, which was hampered by 40 percent field goal shooting. The game was a stopover on A-State's return from Stanford.

1303		
Lincoln, Neb.		First Round
March 16	Nehracka 81	Arkansas State 70

A-State came back from a 15-point deficit midway in the second half to take a 79-76 lead with 48 seconds left due to the outside shooting of Ed Louden. But Nebraska's Eric Johnson scored four straight points to give the Cornhuskers an 80-79 edge with 14 seconds to play. The Huskers' Ray Richardson hit a free throw with six seconds left for the final margin. A-State had a chance to tie the game with no time left but Chris Dillard missed the front of a one-and-one after being fouled just before the final buzzer. John Tate's 23 points and 22 by Louden paced A-State. Johnson's 18 points led the Huskers.

Jonesboro, Ark.	First Round
March 14	Arkansas State 78. Rice 71

Bobby Gross nailed 22 points and Dewayne McCray added 20 for A-State, which took the lead for good at 43-42 with 17:19 to play. Gross hit eight of his 10 shots from the field, McCray nine of his 14 and Fred Shepherd all six of his en route to 17 point as A-State shot 58.8 percent from the floor. McCray claimed a game-high 10 rebounds while Shepherd grabbed nine boards. Brent Scott had 21 points and Dana Hardy contributed 19 for Rice.

OUTLOOK

The Arkansas State University men's basketball program moved into a new home prior to the 2017-18 season following a complete locker room renovation. The A-State men's basketball locker room underwent comprehensive remodeling.

Among the several highlights to the renovated A-State men's basketball locker room are refinished lockers and custom graphics for each locker. The individualized lockers include each men's basketball student-athlete's photograph, number and signature.

A player's lounge with a leather couch and wide-screen high definition television along with a kitchen space are other amenities to make the 'Red Wolves Experience' unique. The locker room also features shower facilities and new custom marker boards for use by the Red Wolves' coaching staff. The walls are adorned with custom A-State graphics as well as new carpeting covering the locker space and wood flooring covering the players lounge area.

STRENGTH & CONDITIONING

The main Arkansas State University strength and conditioning area features 70 work stations, flooring, flexibility area, power area, speed area, cardiovascular area, training equipment, Olympic weightlifting platforms, air and heating system and training security measures.

First National Bank Arena also includes the state-of-the-art Strength and Conditioning Room used by the A-State men's basketball team, which was remodeled prior to the 2008-09 season. The upgrades included all new weights, new floor covering, wall covering, lighting and entrance doors.

The project was completed at a cost of approximately \$150,000 with a large portion of the funding coming from a generous contribution from the Clopton Clinic of Jonesboro.

ATHLETIC TRAINING

The A-State Sports Medicine Department operates five athletic training rooms on campus. First National Bank Arena is the home for all men's and women's basketball, women's volleyball, and indoor track competitions and practices.

Located in First National Bank Arena is a 2,000-square foot athletic training room which is fully equipped to provide all the necessary pre and post-practice treatment. The Tim and Terri Langford Sports Medicine area has undergone recent changes and construction such as new tables, flooring, ceiling, paint and offices.

OUTLOOK

The Arkansas State University men's basketball program's commitment to academics is a significant one.

All of the necessary tools and resources for A-State student-athletes to achieve academic success is provided. This includes academic tutoring and mentoring, learning skills assessments and strategies, course management assistance, degree program advisement and career development.

The Arkansas State University Athletics Department announced the fourth largest single donation in its history, a \$400,000 gift from Charles Luter that was used to enhance the athletics' academic facility, at a press conference held at the newly named Charles Luter Family Academic Success Center in September of 2008.

The Academic Success Center serves as a foundation for structure, discipline and organization for the education of all A-State student-athletes. The facility, coupled with innovative programs and equipment, currently houses the academic support staff, tutors, computer labs, a resource room, study areas, tutorial rooms, small group study centers, a large conference room, the compliance office and spring sports coaching offices.

Among the most recent and noticeable modifications to the Charles Luter Family Academic Success Center is a new foyer housed in a brick and rock exterior that, along with new landscaping, gives the entrance to the building a modern look and creates a stronger image. The actual foyer has a large Red Wolves logo embedded in a terrazzo flooring that greets visitors as they enter the building. A receptionist office now also connects to the lobby area, which holds allnew furniture and a plaque recognizing Charles and his wife Kay.

A restructuring of the academic resource center, now known as Dawson's Den, has occurred, including a wall-wrap celebrating academic success that is clearly visible for student-athletes working in the computer lab. Additionally, tutorial rooms and computer-work stations have been upgraded in this area, which also displays pictures of the most recent A-State graduates. The names of the latest members of the Athletic Director's Honor Roll are also showcased in Dawson's Den. The area is named after Scott and Kay Dawson, longtime supporters of Red Wolves' athletics.

Red Wolf Leadership Academy

It is well-known that collegiate athletics departments across the country place a common emphasis on graduation, but Arkansas State has taken it a step further by already fulfilling a bold promise of 100 percent job placement for all its graduating student-athletes.

A-State has met its job-placement goal through its newly-developed Red Wolves Leadership Academy, which continues to strengthen with a new study abroad component added to foster global awareness which is often cited by employers as a positive attribute they seek.

In the summer of 2015, Arkansas State student-athletes took part in the first study abroad program offered by any university and their athletics department in the nation. The program goes hand-in-hand with the Red Wolves Leadership Academy, designed with the sole purpose to obtain 100 percent job placement for ALL student-athletes upon graduation

The Red Wolves took a ground-breaking step by sending the group of student-athletes to London on a faculty-led academic program. For A-State Director of Athletics Terry Mohajir, this is just one of the many ways it all comes back to providing the Red Wolves with the most comprehensive experiences possible to be successful in life.

According to a recent CNN article (2014), titled "Studying abroad could give you an edge in the job market," only one percent of U.S. college students manage to study abroad. The author can now count these and future Red Wolves among that one percent.

Research conducted by UC Merced backs up what Mohajir and the A-State Athletics Department believes — adding the study abroad component to the Red Wolves Leadership Academy puts its student-athletes among the most desirable employees in the nation coming out of college and helps create global citizens.

The UC Merced research also showed that 97 percent of study abroad students found employment within 12 months of graduation, while only 49 percent of college graduates found employment in the same period. Additionally, statistics revealed study abroad students had a 25 percent higher starting salary than those college graduates who did not study abroad.

Graduate school also falls under the all-encompassing umbrella provided by the Red Wolves Leadership Academy and is included in its goal of 100 percent job placement since it has a significant impact on future employment. According to IES Abroad research ("Recent Graduates Survey: The Impact of Studying Abroad on Recent College Graduates' Careers", 2012), 90 percent of alumni who were accepted into one of their top two choices for graduate or professional school studied abroad.

Like Mohajir, Director of the Office of Study Abroad at A-State, and Dr. Osa Amienyi, Chair of the Department of Media at Arkansas State University, were part of the study abroad vision and instrumental in bringing it to fruition.

ATHLETIC FACILITIES

Arkansas State's athletics programs compete in top-of-the line facilities.

Centennial Bank Stadium, which opened in 1974, has evolved into a beautiful stadium which seats over 30,000 fans. The stadium has undergone a "Centennial Expansion" construction project that covers 40,000 square feet, including the press box and concourse.

The 192,000 square-foot First National Bank Arena is a multi-purpose facility that is home to the A-State basketball, vollevball and indoor track and field teams.

Coaches and student-athletes moved into a new \$2.7 million track and field complex in spring 2004. It contains a newly-resurfaced eight-lane 400-meter track and can be set up for two NCAA venues.

Three local country clubs graciously allow A-State men's and women's golf programs to utilize their facilities for practice and play.

J.A. "Ike" Tomlinson Stadium-Kell Field serves as the home to Red Wolves baseball. Built in 1993, the stadium received complete lighting in 1996, 206 field level seats were added for the 2008 season and a new scoreboard was installed in 2011.

A-State's newest women's program, bowling, competes in the Jonesboro Bowling Center, where a new locker room, lounge and pro shop have been constructed.

The Red Wolves' soccer and track and field teams utilized the same stadium for the first time in school history during the 2014-15 season, as the soccer field was relocated as part of the track facility.

A-State has also completed a new women's soccer and women's tennis facility, which houses both squads' locker rooms, training room, offices and more. New tennis courts were also completed in 2016 as well.

Facilities have received a number of face lifts since Director of Athletics Terry Mohajir's arrival in 2012, making sure that the athletic department's "front door" and other sports areas possess a first-class appearance.

A-State has completed, is in the process of completing and has committed a combined \$60 million in construction and facility renovations since Mohajir's arrival, including stadium lighting and seats at Centennial Bank Stadium.

Also included in the upgrades have been renovations inside the A-State Football Facility and weight rooms, locker rooms and training rooms at both Centennial Bank Stadium and First National Bank Arena, where new seating has also been installed

OUTLOOK

Jonesboro, home of Arkansas State University, weighs in as the largest city in Northeast Arkansas. As a matter of fact, if you form a triangle by connecting Little Rock, St. Louis and Memphis, Jonesboro stands out as the largest metropolitan city in what amounts to a 17,000 square mile triangular area.

Jonesboro is a great city of over 70,000, and is always ready to welcome incoming A-State students from the moment they arrive in town. The booming community has matured over the past half century into a regional center for cultural, educational, industrial, commercial, agricultural, communication, transportation, recreational and medical interests. It contains almost every convenience of a big city and every comfort of a small town.

The community is alive with cultural events such as the art exhibitions, theatrical and musical productions, not only on campus but in the city itself through the Jonesboro Fine Arts Council, NEA Foundation of Arts, the Forum and Northeast Arkansas Symphony.

: but in the city itself through the Jonesboro Fine Arts Council, NEA Foundation of Arts, the Forum and Northeast Arkansas nphony. Jonesboro is also the medical hub of northeast Arkansas and southeast Missouri, with two major hospitals and countless

medical professionals. The city is also a shopping mecca, offering a modern business district as well as quaint downtown antique shops and restaurants. The \$100 million Mall at Turtle Creek recently opened with more than 100 stores.

One of the five largest cities in Arkansas, Jonesboro is located between the vast and fertile Mississippi River and the cultural and scenic richness of the Ozark Mountains. It is nestled about 70 miles west of Memphis, Tennessee, on the gentle slopes of Crowley's Ridge.

Jonesboro is a comfortable one hour drive from Memphis, two hours from Little Rock and four hours from St. Louis. The City and University have meshed resources in recent years and have truly become the "capital" of the northeast quadrant of the state.

Northeast Arkansas is a recreation haven for the person who enjoys water sports, fishing, hunting, and boating as well as the joys of unspoiled nature. Jonesboro and the surrounding area have an abundance of lakes, rivers, ponds, streams and forests to serve as nature's playgrounds for the avid outdoors person.

SUN BELT CONFERENCE

Already a long-time leader in innovation and progressive thinking in the world of intercollegiate athletics, the Sun Belt Conference also continues to establish itself as a force to be reckoned with on the playing field.

The Sun Belt is in its fifth decade as a vibrant and vigorous part of the collegiate landscape, and has never shied away from taking a leadership role among conferences in efforts to provide better experiences for its member schools, its student-athletes and coaches, and for its fans and followers. After all, this is the league that inaugurated college basketball's shot clock and was the first to partner with a fledgling cable television entity whose ESPN moniker was unknown at the time.

Innovation is a great thing, but the just-completed 2016-17 athletic season also showed that the Sun Belt Conference takes a back seat to no other league in its competitive balance and in proving itself deserving of its status a member of the NCAA's highest conference tier.

At no time was league athletic success more obvious than during the 2016 football season, when the Sun Belt broke out and fulfilled much of the promise that league founders and its members envisioned when the league inaugurated the sport just after the new millennium.

Last season, Sun Belt members participated in six bowl games, a 50 percent increase in the league's former high-water mark and only a decade removed from a "one-bowl league" moniker in its formative years. More importantly, Sun Belt teams didn't just get to bowl games, they won them, again in record numbers.

The league finished 4-2 in the postseason, with more bowl wins than leagues such as the Big Ten and Pac-12. Only two leagues (the ACC and the SEC) won more games, and only the ACC's 8-3 bowl record ranked higher than the Sun Belt's winning percentage. Had ACC member Clemson not won the College Football Playoff Championship game, the Sun Belt would have shared the country's best bowl win ratio.

The Sun Belt also had the most wins and best win percentage among the "Group of Five" peer conferences, including victories over teams in the two top-rated leagues in the final computer rankings.

"The bowl season definitely validated the very strong regular season that we had," said Sun Belt commissioner Karl Benson. "It proved what we've been saying all along. The overall credibility of the Sun Belt is on the rise, and our members and fans that have been expecting to see positive results out of the league are now seeing that."

The postseason wins by Arkansas State over Central Florida in the AutoNation Cure Bowl, Appalachian State over Toledo in the Raycom media Camellia Bowl, Troy over Ohio in the Dollar General Bowl and Idaho over Colorado State in the Famous Idaho Potato Bowl helped the league double its previous single-season bowl victory high (two). Appearances by Louisiana in the R+L Carriers New Orleans Bowl - a bowl partner of the Sun Belt for the 16th straight year - and by South Alabama in the NOVA Home Loans Arizona

bowl helped make the Sun Belt a highly visible part of the bowl season.

The wins by Arkansas State and Appalachian State on the Dec. 17 start of bowl season meant the Sun Belt had matched its previous record for bowl wins by sundown on opening day.

"Our teams stepped up this year," Benson said. "To go from two bowl games to five bowl tie-ins in a five-year period, for our teams to deliver like they have, and to throw television in there for the huge growth of people watching Sun Belt football, we had a banner year and it all came to a pinnacle in the bowl season."

The bowl success was the crowning jewel of a season full of football successes for a conference that only began the sport in the 2001 season and became the first and still only already-existing league to inaugurate football. The Sun Belt ranked third in the final conference computer rankings among the "Group of Five" - ranking well ahead of the Mid-American Conference and Conference USA, and giving the league a significant financial boost through payouts from the College Football Playoff. The league also moved into third among the five in the four-year average computer ranking of conferences.

Troy became the first league school to crack the Associated Press Football Top 25 during the season, reaching No. 25 on Nov. 14 as part of a five-win improvement over 2015. South Alabama also provided a milestone with a victory over a nationally-ranked opponent when the Jaguars topped No. 19 San Diego State on the road in early October.

All that success comes as the league finalizes its football transition this season, with Idaho and New Mexico State's football-only memberships ending at the conclusion of the 2017 season and new league member Coastal Carolina becoming a full-fledged football member this fall. Next year, the Sun Belt will compete in football divisions for the first time and will stage its first-ever championships game at the end of the 2018 season

"We are very excited going forward in football," Benson said. "Having our championships game next year only increases what we already have going. The footprint of this league was done to ensure long-term success and sustainability, and with the membership structure we now have in Texas, Louisiana, Arkansas, Alabama, Georgia, and the Carolinas, that footprint is set up for even more success."

The Sun Belt gained much notoriety and notice during the past football season, but that was by no means the league's only hallmark during the past year. Men's basketball - the league's symbol of success in its formative years - had its highest conference RPI in more than a decade with a No. 13 national finish, and conference members found success in several NCAA post-season events.

Those league successes have been more public in recent years, in part because the Sun Belt itself has been progressive and in the forefront of "new media" and internet-based advancement. The league continues to adapt to the ever-chang-

SUN BELT CONFERENCE

ing world of collegiate athletics and continues the process of evolving to better serve its membership, keeping the pledge it made at its founding to be a league of opportunity. Athletic and academic programs who have shown progressive thinking and the desire to improve have always found a home in the Sun Belt.

Opportunities also extend to the league's student-athletes, for whom Sun Belt institutions are leaders in providing career services and the tools to assist in the pursuit of personal goals. Sun Belt members all employ full time academic advisors and have on average nearly two dozen tutors for academic support. During the recent 2015-16 academic year, Sun Belt member institutions awarded over \$50 million in scholarships to more than 3,100 student-athletes, while also providing life experiences such as team building, domestic and foreign travel, community services, mentoring and recognition through honors and awards.

Individual opportunities also extend between the lines and on the fields and courts of competition. The Sun Belt had 40 players on active NFL rosters during the past season, with representa-

tion on 23 of 32 NFL clubs.

The league became one of seven conferences nationwide to have back-to-back first-round selections in the NBA Draft when Louisiana's Elfrid Payton went No. 10 overall to the Orlando Magic in 2014 and Georgia State's R.J. Hunter was the No. 28 pick of the Boston Celtics the following year.

The Sun Belt has nationally-respected programs in nearly every NCAA sport offering and remains a fixture on the national scene while remaining heavily involved in the conduct and competition of college athletics. But i also provides opportunities for success on many unique and different levels. In athletics parlance, the Sun Belt has "upside," and its motto of "Together We Rise" is just as applicable now as when it was founded as a home to some of the nation's premier mid-major basketball programs.

In its very first year, one of those programs reached the pinnacle of NCAA men's basketball competition when UNC Charlotte earned a berth in the Final Four. That type of success set the bar very high, but the league's four-decade history is sprinkled with landmark success in all seasons.

In the spring, baseball and softball continue to put the league in the national spotlight with deep runs in postseason play and high visibility in national polls. Louisiana's baseball team ranked No. 1 nationally in the final third of the 2014 season and reached the NCAA Super Regional round in 2014 and 2015, while its softball team has advanced to Super Regional play five times in the last six seasons including a trip to the 2014 Women's College World Series. More recently, new member Coastal Carolina reigned supreme at the pinnacle of college baseball, winning the 2016 College World Series.

Just as important as on-field success, the Sun Belt's commitment to academic excellence remains a league symbol. The league's record book for grade-point averages and academic honors is a constantly-changing document, seemingly with each year's success outdoing the previous year.

ARKANSASSTATE

This past spring, a record 23 league programs were recognized for outstanding performance in the classroom, with those teams earning NCAA Public Recognition Awards for APR scores in the top 10 percent nationally.

It was the third consecutive year the Sun Belt has broken its record for teams honored.

The strength of any league is its membership, and the Sun Belt added to its strength when Coastal Carolina joined in all sports except football in July 2016. CCU is in the middle of a transition to the Football Bowl Subdivision and will be in its first year of full FBS membership in 2018, but will compete for the Sun Belt football championship this season even though not eligible for postseason play until 2018.

Coastal joins Appalachian State, Arkansas State, Georgia Southern, Georgia State, Louisiana, ULM, South Alabama, Texas State and Troy to give the league 10 football members and enable the Sun Belt to inaugurate divisional football play and stage a conference championship game in 2018.

Little Rock and UT Arlington compete as Sun Belt members in all sports other than football, helping give the conference a mix of the "old" and the "new."

Long-time league members, including charter member South Alabama's distinction in being a Sun Belt member since its founding in 1976, continue to have success, and a solid corps of conference newcomers continue to make their marks on league and national levels.

The "old" and "new" mix also gives the league vitality and diversity among its membership across the South. The mix of regions and regional cultures provides a rare opportunity for student-athletes and staffers to experience many environments, and the chance to experience that diversity without leaving their own campuses. The Sun Belt is also noteworthy for its attempts to make each of its championship events in every sport a special moment in the lives of its student-athletes and its many fans and followers.

Many individuals from Sun Belt institutions have brought distinction to their alma maters, and not just in athletics. For every All-Pro linebacker DeMarcus Ware (Troy) and NFL Man of the Year Charles Tillman (Louisiana), and for every World Series MVP David Freese (South Alabama) hailing from Sun Belt schools, there are also U.S. presidents (Lyndon Johnson, Texas State), business icons (Chick-fil-A president Daniel Cathy, Georgia Southern), nationally known entertainers (Tim McGray, ULM and Ludacris, Georgia State), and even royalty (Miss America Debbye Turner, Arkansas State).

These proud alumni, as well as those who represent the dozen league institutions, are proof that the Sun Belt Conference is a league of excitement, a league of opportunity, and one that continues to provide the promise of success with each coming sunrise.

for key athletics program personnel; reviews the role of existing and potential sports programs; and reviews the athletics budget. The committee reports to the Chancellor.

Membership consists of four students appointed annually by the Student Government Association (one should be a student-athlete); four faculty appointed by the Faculty Senate (staggered two-year terms); one Faculty Athletic Representative appointed by the Chancellor (two-year term); one executive staff member appointed by the Chancellor (two-year term); the Dean of University College; two staff members appointed by the Staff Senate (staggered two-year terms); Student Government Association and Student Activities Board presidents; and representatives from the following external organizations: Alumni Association, Red Wolves Foundation, Lettermen's Club, and the Jonesboro Regional Chamber of Commerce ASU Committee. The Director of Intercollegiate Athletics and the Senior Woman Athletic Administrator serve as ex-officio, nonvoting members. The chancellor appoints a chair at the beginning of each academic year.

Dr. Charles Welch serves as president of the Arkansas State University System and has emerged as one of the state's leading advocates for higher education.

Dr. Welch was named the second president of the ASU System in November 2010 and officially began his new position in April 2011. He is the youngest person to ever serve as president or chancellor of an Arkansas community college, and is the youngest university president in Arkansas.

During his tenure, Dr. Welch has hired new chancellors for all five of the system's main campuses. Among the system's major expansion initiatives under his leadership are the merger of Mid-South Community College in West Memphis; the August 2016 opening of NYIT College of Osteopathic Medicine at Arkansas State, which will be the state's second medical school: and development of the first U.S.-style university campus in Mexico, which opened this fall. Additionally, the ASU System office was relocated to Little Rock and expanded to enhance its statewide exposure and position in higher education leadership at the State Capitol.

Dr. Welch is chairman of the board of the Arkansas Association of Public Universities, as well as co-chair of the executive council of the Arkansas Department of Higher Education. He previously served as president of Henderson State University, chancellor of the University of Arkansas Community College at Hope; vice chancellor for ac-

ademic affairs at ASU-Beebe; and dean of university studies at Pulaski Technical College. Welch also worked at the University of Arkansas at Little Rock and has served as an instructor of education and political science at three different colleges in Arkansas.

A native of Jonesboro, Dr. Welch was a first-generation college student and the first member of either side of his extended family to receive a graduate degree. He received a Bachelor of Arts degree in political science from the University of Arkansas, where he served as president of the student body. He received a Master of Arts degree in political management from George Washington University and a Doctor of Education degree in higher education administration from UALR.

His experience in the governmental affairs arena includes serving as a White House intern and on the staffs of U.S. Sen. David Pryor and then-U.S. Rep. Blanche Lincoln.

He is a past president of the Arkansas Association of Two-Year Colleges, is a former board member for the Arkansas Sherrifs' Youth Ranches, and was inducted into the Arkansas Boys State Hall of Fame. AY Magazine named Welch as one of the "Powerful Men of 2013," and in 2005, Arkansas Business selected Welch to "40 Under 40," which profiled 40 "intriguing business and political leaders under age 40." He also has been active in the communities where he has worked, serving on a variety of local and regional boards and committees.

Dr. Welch and his wife, Mandy, are the parents of three daughters: Wheatley Grace, Emma Caroline, and Ava Claire.

CHANCELLOR DR. KELLY DAMPHOUSSE

Kelly Damphousse became Chancellor of Arkansas State University on July 1, 2017, thanks to a personal email. An academic administrator at the University of Oklahoma since 2004, Damphousse (DAM-fiss) was serving as the Dean of the College of Arts and Sciences. He and his wife Beth were the family in residence at OU's freshman Headington Hall. In addition to enjoying teaching "Introduction to Sociology" to 700 first-year students each year, he was the Sooners' Big 12/NCAA Faculty Athletic Representative.

Then, he got that email.

The last person to say so, Damphousse over the years had become a highly sought-after, but "thanks, not interested," recruit of numerous president or chancellor searches. He'd seen his share of head-hunter pitches. But on that day, there was a personal message from the President of the Arkansas State University System. Chuck Welch explained how he was convinced Kelly Damphousse was the man for the job at A-State.

A personal touch with students, faculty, staff, alumni, and members of the Norman community was Damphousse's hallmark. His emphasis on placing students first became apparent during his campus visit to A-State in May 2017. The A-State Staff Senate heard the message and made "Every Red Wolf Counts" t-shirts that welcomed him and Beth when they were introduced later that month.

His self-effacing humor and a lifetime spent relating to individuals regardless of the job led him to Jonesboro to become the third permanently appointed Chancellor of Arkansas State, the sixth to hold the title since it was instituted in 2006. Damphousse joins the line of successors to the university's founding leader, V. C. Kays, from 1909 as the 13th chief executive of the institution.

Raised in a small fishing village in northern Canada, Damphousse attended Lethbridge Community College where he earned an associate's degree in law enforcement in 1982. A failed professional hockey tryout foiled one of his two early life ambitions, a career as a goalie in the NHL. His degree was the starting point for his other goal: becoming a Royal Canadian Mounted Police officer. As he likes to say, three years in prison at the Alberta Correctional Service where he served as a correctional

officer refocused his dream of becoming a Mountie

Heading south, Damphousse enrolled at Sam Houston State University in Huntsville, Texas, where his life was changed forever. Along with completing his bachelor's in criminal justice, specializing in law enforcement and police science in 1987, he met Beth Smith, a College Station native who, in Kelly's words, "neither wanted to marry a cop or a Canadian." After a brief stint as a security manager for Macy's in Atlanta and New Orleans, he returned to graduate school at Texas A&M University where he discovered Satanism.

Actually, it was his thesis on the etiology of youthful Satanism that earned him his master's in sociology in 1991. After completing his master's degree, he progressed into the study of drug use at A&M, completing his doctorate under Howard Kaplan, the director of the laboratory for the Studies of Social Deviance, and examined in his dissertation the long-term consequences of using drugs.

He began his university career as an assistant professor in the Department of Justice Sciences at the University of Alabama at Birmingham in 1994, and then returned to his alma mater of Sam Houston State one year later as an assistant professor in the College of Criminal Justice.

Damphousse moved to OU in 1997 as member of the Department of Sociology, where he directed several research projects, most notably the "American Terrorism Study" with Brent Smith of the University of Arkansas. He also worked on the Arrestee Drug Abuse Monitoring project in Oklahoma City and Tulsa, and the first-ever field test of voice-stress analysis deception detection software. Damphousse was the principal investigator or co-principal investigator on 42 projects at Oklahoma and Sam Houston State.

The co-author with Smith and Jeffrey Gruenewald of the forthcoming 2018 book, Patterns of American Terrorism, Damphousse also served as the co-editor of Social Science Quarterly, volumes 92 through 97. He has authored or co-authored 26 peer-reviewed articles in scholarly publications, 31 book chapters and 20 peer-reviewed technical reports.

Becoming associate dean in 2004, he was appointed the interim dean of CAS at Oklahoma in 2013. Damphousse was made the permanent dean in 2014. As the leader of OU's largest and oldest college, Damphousse led the first college-wide strategic planning exercise as well as assisting faculty and staff in the raising of more than \$30 million in private giving.

He and Beth have two daughters who are both graduates of Oklahoma. Kayleigh, a 2014 sociology graduate, earned a master's degree at Kansas, and is now the assistant director for retention and persistence at the University of Florida. Kristen, a 2016 biology graduate, is at Emory University working on her master's degree in public health. The Damphousses are also the proud parents of Maple Leif, a standard poodle and lab mix, who serves as the First Dog of A-State and tweets at @MapleLeif-Damp.

DIRECTOR OF ATHLETICS TERRY MOHAJIR

Terry Mohajir became the 11th Director of Athletics in A-State history on September 19, 2012, and since that time the Red Wolves have enjoyed unprecedented overall success academically, competitively and financially.

Since being named director of athletics, Mohajir (pro-

Since being named director of athletics, Mohajir (pronounced MO-HODGE-ER) has adopted an "ALWAYS RISING" slogan as an expansion on the popular "RED WOLVES RISING" campaign. With that theme in mind, the Arkansas State alumnus has instituted sweeping changes, created new policies, produced record-breaking fundraising totals, overseen significant facility upgrades, almost doubled the athletics department budget and implemented creative philosophies that have put the Red Wolves on course to strengthen their national brand. During his watch, the Red Wolves have accomplished numerous first in both academics and athletics accomplishments, but the Red Wolves' passionate and energetic leader continues to reinforce his belief that "our accomplishments of today become our expectations of tomorrow."

A-State has claimed 13 conference championships under Mohajir, including four Sun Belt football titles (2012, 2013, 2015 and 2016) and league crowns in volleyball (2015), men's indoor (2015) and outdoor (2016) track and field, women's bowling (2016), women's basketball (2014 and 2016), women's indoor (2013) and outdoor (2015) track and field and women's cross country (2014).

Arkansas State had its first female student-athlete ever win an individual national championship and its women's athletics program claimed its highest finish all-time in the Capital One Cup standings, earning two prestigious top-50 awards for ranking No. 44 among all NCAA Division I programs during the 2013-14 and No. 45 in 2015-16. The No. 44 ranking was the highest ever by a Sun Belt Conference women's program.

The 2013-14 athletics year also saw A-State enjoy its highest ever finish in the Learfield Sports Directors Cup standings, ranking No. 1 in the Sun Belt Conference and No. 83 in the nation among 297 schools. The Red Wolves' finish not only set a school record, it topped the program's previous high of No. 134 set in 1999-2000 by 51 places. A-State posted its second highest finish ever in the standings in 2015-16, and, most recently, again led the Sun Belt Conference in 2016-17.

During Mohajir's tenure, A-State has won four football conference championships with three different head coaches, including Gus Malzahn, Bryan Harsin and Blake Anderson. His hires have been heralded by the national media as some of the best in the country.

Monajir has responded well with coaching transitions. Carrying out one of his first major acts as athletics director, he appointed an interim head football coach and kept the entire assistant coaching staff in place for the 2013 GoDaddy.com Bowl. The Red Wolves went on to claim their first bowl victory since 1970 and their first win over a top-25 ranked opponent since joining the FBS in 1992. Faced with a head football coaching change following the next season as well, Mohajir guided A-State through the process again by keeping the assistant coaching staff in place and giving the Red Wolves everything needed in order to pick up a second consecutive GoDaddy Bowl win.

Mohajir has successfully guided A-State through coaching changes in other sports as well. He appointed Mike Hagen head men's golf coach prior to the 2015-16 season, and he was promptly named the Sun Belt Conference Coach of the Year. Mohajir's most recent hire, Mike Balado, was previously the lead assistant at one of the elite men's basketball programs in the na-

tion in Louisville and is considered one of the top up-and-coming head coaches in the nation. He replaced Mohajir's previous hire, Grant McCasland, who led the Red Wolves to 20 regular-season victories to tie the school record in his lone year with the program.

ARKANSAS STATE

Six different coaches at A-State since Mohajir's arrival have been named either a Sun Belt Conference Coach of the Year or national Coach of the Year a combined 12 times.

The value he places on the student-athlete has been evident, creating the inaugural A-State Awards held at the end of each year to celebrate both their academic and athletic accomplishments. He was behind the development of a student-advisory group that encompasses everything from a student-athlete mentorship program to fostering leadership in the community. The Red Wolves Leadership Academy program (RWLA) was designed with the sole purpose to obtain 100 percent job placement for all the athletics department's student-athletes upon graduation, and that key initiative has been achieved the last three years in a

The RWIA continues to strengthen with a new study abroad component added to foster global awareness, which is often cited by employers as a positive attribute they seek. The study abroad program was designed to allow students the ability to make themselves more marketable in the workforce. The summer of 2015 saw Arkansas State student-athletes take part in the first study abroad program offered by any university and their athletics department in the nation. The program goes hand-in-hand with the RWIA's primary purpose to obtain 100 percent job placement for all its graduating student-athletes.

The Red Wolves also saw their academic performance reach an alt-time high during record-setting 2013, 2014, 2015 and 2016 all semesters, which saw student-athletes achieve the best four ever all-department GPA's in consecutive years. A-State achieved a 3.083 all-department GPA in the fall of 2016. The 2016 fall semester featured a school-record 216 student-athletes named to the Athletics Director's Honor Roll. The athletics department also posted its best ever department-wide APR score each of the last two years, according to the latest data.

Additionally, the Red Wolves' have made a strong commitment to cost of attendance, appropriating funds for all student-athletes that is in the top 15 percent of all FBS schools.

Mohajir's candid media interviews and engaging public speaking appearances have captivated the Red Wolves fan base, but his actions in a short amount of time have also reflected his vision to take A-State Athletics to new heights.

The primary development arm of A-State Athletics, formerly known as the Red Wolf Club, has been renamed the Red Wolves Foundation and a new logo has been introduced as part of a rebranding effort. The changes have been in conjunction with new and exciting initiatives that have been put in place, designed to make a significant impact on donor relations and fundraising opportunities. The positive results are evident with a 300 percent increase in the foundation's annual fund revenue, while capital facilities fundraising is at an all-time high as well. A-State has also achieved its highest spot ever in the Collegiate Licensing Company's (CLC) rankings and set school records for both football total season ticket sales and season ticket revenue. Not only that, A-State is ranked 21st among the schools in the Group of 5 conferences in self-generated revenue.

The athletics department's budget has increased from \$15.9 million in Mohajir's first year to \$43.1 million (FY 2016), representing an increase of 171 percent. A-State Athletics placed among the top 10 programs in the nation in each of the four most recent Excellence in Management Cup standings, which annually reviews the nation's athletics departments in regards to maximizing fiscal resources while providing results in the form of championship victories.

The growth of A-State's brand under Mohajir allowed led to signing a new 10-year agreement in 2016 with Learfield Sports, one of the multimedia industry leaders, which will generate unprecedented revenue in the athletics department's history. Arkansas State, in the fall of 2016, also entered a new seven-year partnership with adidas that is the most lucrative apparel-based contract in school history and makes it an elite adidas program.

Mohajir has made it a point to engage the fan base, stressing the importance of fan experience through avenues such as courtside seating at basketball games, enhancing game-day atmosphere and ensuring that staff go out of their way to extend every fan their assistance. Also among the changes in this area was the installation of a new approximately 1,600 square foot LED Daktronics scoreboard at Centennial Bank Stadium.

Facilities have received a number of facelifts since Mohajir's arrival as well, making sure that the athletic department's "front door" and other sports areas possess a first-class appearance. A-State has completed, is in the process of completing and has committed a combined \$60 million in construction and facility

DIRECTOR OF ATHLETICS TERRY MOHAJIR

renovations since Mohajir's arrival, including stadium lighting and seats at Centennial Bank Stadium, new tennis courts and a new outdoor track. Also included in the upgrades have been renovations and updates inside the A-State Football Facility and with weight rooms, locker rooms and training rooms at both Centennial Bank Stadium and First National Bank Arena, where new seating has been installed.

The Red Wolves Foundation received a \$5 million gift commitment from alumnus Johnny Allison for a renovation to its "Centennial Expansion," and it is the largest individual donation in A-State Athletics history. The construction and renovation project to the stadium's press box and west-side concourse covered 40,000 square feet and cost \$26 million.

Additionally, a 78,000-square foot Student Activity Center (SAC), which also serves as an indoor practice facility for A-State sports, has been constructed on the north side of Centennial Bank Stadium. The approximate cost was \$11 million for construction of the center and the relocation of the soccer complex.

He is overseeing the fundraising efforts for a \$26-million football facility project in Centennial Bank Stadium's north end zone as well.

Committed to Title IX and gender-equity initiatives, A-State has worked to improve coaching staff sizes and salaries, operation funding and facilities under Mohajir. Among the uggrades, A-State has completed a new women's soccer and women's tennis facility, which houses both squads' locker rooms, training room and more. A new women's bowling locker room, lounge and pro shop have also been constructed.

His philosophies on scheduling have been well documented, and they have resulted in home-and-home games with nationally-prominent programs such as Missouri and Miami for the first time in A-State history. He has capitalized on the Red Wolves recent success by gaining additional games against teams such as Southern Cal, making A-State the first Sun Belt program to schedule a football contest against the Trojans.

Mohajir was recently appointed as the Sun Belt Conference's reserventative on the College Football Playoff Athletic Director's Advisory Board, acting as one of 10 athletics directors from FBS conferences on the board. He was also asked to serve on the NCAA Division I Championships Cabinet and the NCAA Division I Football Issues Committee. Mohajir was one of six athletics directors appointed to the NCAA Division I Football Ad Hoc Recruiting Working Group, which was formed to conduct a comprehensive review of Division I football recruiting legislation.

Additionally, he was a guest panelist at Knight Commission public meeting May 1, 2017, at the National Press Club. Speaking alongside fellow panelists such as Big 12 Commissioner Bob Bowlsby, Conference USA Commissioner Judy MacLeod, Missouri Valley Football Conference Commissioner Patry Vivirito and Don Yee of Yee & Dublin Sports, LLC, Mohajir discussed "The Future of College Football: A Focus on Finances and Player Benefits and Protections."

Mohajir continues to evaluate and process information to complete a national-branding campaign, but has already started building a strong foundation for the future of A-State Athletics.

Mohajir's career path went through three other NCAA Division I institutions, including the University of Missouri Kansas City, Florida Atlantic and Kansas, before leading him back to his alma mater.

Mohajir's wealth of experience, history of success working with a university in A-State's current conference and his noted accomplishments at a BCS automatic qualifying school made him

a clear choice to take over the reins at Arkansas State.

Mohajir has gained national respect in collegiate athletics while working with some of the finest administrators and coaches in the country, such as former FAU, Louisville, Miami and Oklahoma head football coach Howard Schnellenberger.

The Overland Park, Kansas native has been involved with major fundraising campaigns at multiple universities, while also overseeing corporate sales, marketing promotions and ticket sales. Prior to A-State, he most recently served 16 months as Kansas' Senior Associate Director of Athletics and Chief Marketing Officer. Prior to his time with the Jayhawks, he spent a seven-year stint as Florida Atlantic's Senior Associate Director of Athletics for External Relations from 2004-11 after working at UMKC from 1997-2004 as its Assistant Director of Athletics for External Relations

Mohajir worked at Kansas in a variety of capacities during two different stints, but his latest stop in Lawrence saw him assume responsibility for the Williams Education Fund that totaled over \$22 million in revenue for the fiscal year 2012. He supervised the athletics department's areas that generated over \$40 million in revenue. In addition, Mohajir oversaw Kansas' multimedia rights partnership for IMG. His most recent role as Chief Marketing Officer was heavily focused on the market strategies for the proposed football stadium renovations.

Mohajir went to Kansas from his position at Florida Atlantic, where he oversaw development, marketing, ticket sales, corporate sales and the media relations department. Foremost among his responsibilities was a fundraising campaign for a \$70 million on-campus football stadium. His astute project management helped the Owls' football program reach the 2007 New Orleans Bowl in just its fourth year as an FBS program, an NCAA record for the fastest start-up program to go to a bowl game. During his tenure, FAU's athletics department enhanced its major gift program 800 percent, Owl Club giving increased 400 percent and special-events revenue increased 150 percent.

Mohajir's original connection to KU dated back to the early 190%, when he was a graduate assistant, an assistant offensive line coach and game-day special team's football coach for the Jayhawks (1993-96). He left Kansas in 1997 but didn't go far, staying in the Kansas City area to take over his administrative position with the newly-created Division I UMKC Athletics program. There he supervised marketing and promotions, sports information, fundraising, radio and TV contracts, corporate sales, tickets, event operations, sports medicine, strength and conditioning and men's soccer.

Under his leadership, the Kangaroos saw dramatic increase in endowment, sponsorships, ticket revenue and its donor base. One of his more visible accomplishments at UMKC was the fundraising and construction efforts for a new training room and strength and conditioning center.

During his time as an assistant coach at Kansas, Mohajir was on the staff that beat UCIA in the 1995 Aloha Bowl and had a final ranking of No. 9 in the AP poll. He was also a football ticket sales and promotions account executive for Kansas Athletics and earned a master's degree in sports management at KU in 1997.

Mohajir graduated from Arkansas State University with a major in sports management and a minor in business marketing in 1993. He was a starting safety on A-State's football team.

Mohajir is married to the former Julie Hammond and they have two daughters, Maria (16) and Molly (14), and son, Marco (1)
